Action Type: School education staff mobility

Project Title

# DEVELOPING CLIL AT TORREVICENS

## Project Coordinator

**Organisation** Institut Torre Vicens  
**Address** Avinguda Torre Vicens nº 3 , 25005 Lleida , Catalunya , ES  
**Website** [www.iestorrevicens.cat](http://www.iestorrevicens.cat)

## Project Information

**Identifier** 2015-1-ES01-KA101-014472  
**Project Web Site** <http://www.iestorrevicens.cat/internacional/>  
**Start Date** Jun 1, 2015  
**End Date** May 31, 2016  
**EC Contribution** 8,343 EUR

## Project Summary

Our high school presents a great cultural, and economic diversity with students coming from different parts of the world that requires different programmes and individual attention. The implementation of projects involving linguistic, cultural and social skills is of the outmost importance to reach our goals.

The use of CLIL methodology is considered to be the best way to integrate content, foreign language and integration both in our country and as European citizens.

For this reason, our school wants to create a team of 3 teachers (who have a high level of English and they are initially trained in CLIL methodology to develop our new education project the following year 2015-16, included in our strategic plan. The Language project wants to give the opportunity to our students to study non-linguistic subjects in English language in order to improve language, personal, social, technological and science skills. English Teachers will support the teachers participating in the programme.

Nowadays, the project has started with 12 years old students (1ESO) involving Technology, Science and Music, with a great interest and implication of the pupils. The following years, our school have the aim of increasing the number of subjects such as TIC, Social Studies, Arts and crafts and Physical Education to achieve the required English level by Europe Union.

Our high school wants to increase the awareness of the project with the participation in multilateral projects such as eTwinning and Erasmus+ strategic partnerships.
